

Tables

Non-Confidential

Report by: Elaine Atkin

Date: 01/10/26

Report to: Parish Council 10/2026

A number of the older tables at Jubilee Hall are chipped/damaged. This doesn't look great when we're hiring out the Hall. It also means that these tables are more likely to accumulate dirt and debris where they are damaged.

Three of the large tables and two of the small tables are damaged.

In addition to the damage, the large tables are very heavy and difficult to set up/take down, requiring two people to do this safely. It's also difficult (more chance of sustaining an injury) to get them back in the table trolley for storage. We have canvassed our regular hirers and determined that most have no requirement for the large tables, which they have difficulty coping with.

If a number of tables need replacing it may be better considering purchasing small-size tables rather than the large ones. (Two small tables provide the equivalent space of one large one). These can be sourced for £100 Net, plus delivery. (See details on next page).

The chipped tables are due to be moved to Station Road (our changing room) and could be used if an ad-hoc meeting was required at Station Road or they could even be used outside if there was an event on. Any tables with damaged legs will need to be disposed of.

Recommendation

There is only space on the trolleys for 5 tables, so we recommend that 5 small tables are purchased for now.
